1. I felt that Prof. Josey was extremely passionate about the subject. She was great at explaining difficult concepts and tying the subject matter in with real world events and applications.

2. We got a little behind schedule, which led to a buildup of assignments at the end of the quarter.

Thank you for your participation!

I thought the class was very good overall. I enjoyed learning more about language and I felt the instructors enthusiasm helped me comprehend it better. I think slowing down the first portion of the class (learning phonetics) could help.

would be interested in. Some rules were unclear such as
the PNW survey. But great teacher.

Dr. Josey's powerpoints really helped when it came to breaking down a dense textbook. I learned more than I thought I would. I'm very pleased with her performance and the amount of content I will take away.

I believe that her personal touch to the course was a good way for the class to see where she was coming from. I liked the films and group projects. Maybe more complex studies on more lesser known languages and examples. I enjoyed this class and I hope English students in the future will as well.

I thought one of the best things about this class was that you interacted with the students. It made learning this kind of material much easier and interesting. One thing I think could be improved on in the frequency of the reflections. Some weeks I felt like I did not have much to talk about.

1. Instructor's passion for the subject
Positive class atmosphere

2. Journals were tedious at times, I felt I could've said what I needed to in 1 page double space.

Group work w/o group presentation didn't work very well. No incentive for group to actually meet up and work together.

3. Thank you!

I really liked that we took time to dig into the information in the first half of the class.

I think that we ran out of time in the last half and had to rush through some material that I was interested in learning.

Josey excelled in the organization of the course. Never was I confused on what was being discussed on what day and due dates were all very clear. Use of class time falls into this, as I never felt like time was wasted and each class was very well planned out and billed time effectively and efficiently. Josey's vast knowledge of the subject matter also helped me learn the topic more easily and stay engaged as a learner.
