I thought Meredith did an excellent job of teaching so much material in such a short period of time. Because of the amount of material, however the class was very overwhelming - things that could be fun were stressful because of the little time to actually mentally grasp the info

Thank you for your participation!

1) I thought the jigsaws were especially good - I gave us a chance to have access to knowledge without being overwhelmed w/ readings. I also thought the projects were relevant & useful. This is almost my last TESOL course & it has been the most helpful so far (aside from being grammar & course). Everything we did was explained & related back to practical uses. The class led to further in several other classes but this was the first class to actually bring that component in & report on that experience.

2) I feel that having to use the same topic for most/all of our projects was often frustrating. I understand it was supposed to help us w/ the final project but I didn't get along well with my topic & it made it challenging to have to use it for everything.

Meredith brought so much to this course. She always had a smile on her face, was here on time, and was super duper at presenting material.

I feel that this was a really good and effective class for the TESOL program. I think Meredith is an awesome instructor, I thought she was a very strong prof. However, I feel that this class has a lot of busy work - and I felt the projects & discussions were more effective. Overall, however, this class was really beneficial!

This class was very well done. The challenge and appropriateness of the workload was very appropriate. I do wish that the professor would have been a more direct in dealing with the inappropriateness of some students' behavior. There was a lot of "potty talk" and sexual references that were spoken during class discussions and presentations that were distracting and insulting.

Thank you for your participation!

- ② Sometimes the directions were a little confusing.
- ③ THANKS! (especially for being around to answer questions.)

It seems like we spent too much time figuring out what we were supposed to do, instructions were overly complex or vague.

Meredith is great! When I first thought about taking a class for 5 hours straight, it seemed daunting (sp). However, Meredith made it really fun, with a lot of diversity. I learned a lot and felt that there were very few assignments that weren't beneficial. She's great!

This class was amazing. Meredith is one of the best teachers I've ever had. I loved being in her class because she valued me not only as a student but also as a person. I love the way she teaches and I learned so much in her class. I'm looking forward to taking more of her classes. It's a great honor to be one of her students.

What we were learning was very applicable to teaching.
I like that the course is very hands-on & practical.
I also liked that we did so much group work & had
a chance to get to know other students. Sometimes
the way the assignments were presented was confusing,
especially in terms of what color group we were or
what age group or what topic or when we could
pick our own.

Thank you for your participation!

Professor Josey has a considerable grasp of teaching methodology. She is accessible to students, answers e-mails and inquiries promptly and is helpful and flexible when dealing with the needs of individual students. I enjoyed her class considered the feedback that she gave me on my work to be constructive.
